Q10. Why do you feel it is important to have cultural based fraternal organizations on campus?

Count	Percent		
61	100.00%		
Count	Percent		
1	1.64%		Allows people to form strong attachments with people who have similar interest.
1	1.64%		As minorities, the predominantly white fraternities/sororities expect us to either conform to fit their standards of a brother/sister, or move on. Having the opportunity to join a fraternity that accepts me for me changes the landscape of greek life in my eyes.
1	1.64%		Because it not only provides a community for people who might find it hard to fit in, but also spreads awareness on the importance and benefits of diversity.
1	1.64%		Being a majority white school, we need diversity programs such as these to help minorities feel more at home.
1	1.64%		Cultural based organizations provide a sense of belonging for minorities. Compromising one's culture and character is not at stake in order to have friends.
1	1.64%		Diversity is the way we all succeed. Having those different POVs will bring new solutions and ideas.
1	1.64%		Especially being at a PWI I think it's a great one to connect and feel at home with people from similar backgrounds.
1	1.64%		Every culture can't be represented by one group. It takes several groups to represent all.
1	1.64%		I believe everyone deserves a voice and having multiple cultural based organizations helps that. Especially going to a pwi you can sometimes feel lost or underrepresented but having cultural based organizations truly does help.
1	1.64%		I believe it is important because not all campuses offer outlets that allow students to embrace and learn about their culture while simultaneously building bonds and relationships with like-minded individuals.
1	1.64%		I believe it's important because it shows underrepresented groups on campus that their is a place and community for them within a sorority/fraternity.
1	1.64%		I believe it's important to have so everyone feels included and comfortable. Being at a predominately white university being able to connect

with people of similar cultural backgrounds and familiarity really impacts being at the university.

1	1.64%	<input type="checkbox"/>	I believe that everyone should have their home away from home. Having a cultural based fraternal organization on campus can allow a person to build bonds and work with people who are similar to them in some kind of way thus making them comfortable in the campus environment.
1	1.64%	<input type="checkbox"/>	I believe that it is very important to establish cultural based fraternal organizations because not only do they bring forward diversity on UT grounds but also they help provide a place of being for minorities. These organizations, whether directly or indirectly, promote individual growth, bring forth empowerment within cultures, and recognition amongst the campus.
1	1.64%	<input type="checkbox"/>	I feel it is important that everyone have a place that makes them feel welcome and comfortable in a world where being uncomfortable is the normal
1	1.64%	<input type="checkbox"/>	I feel it is important to have cultural based fraternal organization on campus because it allows students to have a place they feel most welcome and comfortable with people they may have common principles and/or morals with
1	1.64%	<input type="checkbox"/>	I feel it is important to have cultural based fraternal organizations because it allows everyone to be able to see themselves in something and to feel like they have a place to be them selfs
1	1.64%	<input type="checkbox"/>	I feel like it is important to have cultural based fraternal organizations on campus because it gives every student a chance to see that there are people that look like them and so no student feels disconnected to their history.
1	1.64%	<input type="checkbox"/>	I feel that correct ethnic representation is necessary on campus, especially at a PWI. Knowledge about cultural based fraternal organizations is not widely known, and these organizations deserve to have not only recognition but respect.
1	1.64%	<input type="checkbox"/>	I feel that it is important because it allocates a space for unity within a certain culture. It provides a safe space for certain individuals by linking them with people that are like minded and similar to them in appearance as well. It is sort of like a home away from home.
1	1.64%	<input type="checkbox"/>	I feel that it is important in order to emphasize the awareness of matters that are important to you along with people who look and share similar ideas as you.
1	1.64%	<input type="checkbox"/>	I think it is good to have representatives on campus to look up to academically and culturally.
1	1.64%	<input type="checkbox"/>	It adds diversity
1	1.64%	<input type="checkbox"/>	It brings the community of one culture together and unites different backgrounds with common interest. It also creates an extended family in the process.
1	1.64%	<input type="checkbox"/>	It can be someone's safe haven, or their home away from home.
1	1.64%	<input type="checkbox"/>	It give minority students the opportunity to find others with similar culture backgrounds. As well as introducing allies of cultural diversity to different ways they can help and support diversity on campus.
1	1.64%	<input type="checkbox"/>	It gives students more options to explore what they want to do and choose an organization that will help them impact their community
1	1.64%	<input type="checkbox"/>	It helps bring people together
1	1.64%	<input type="checkbox"/>	It I'm important to have cultural based fraternal organizations because it helps all students find their niche and home with a group of people they can call their brother/sister.
1	1.64%	<input type="checkbox"/>	It is important as a university that enrolls students of color to establish a sense of community on a campus where many groups are not the majority. Student life and engagement is more than activities on a calendar, but extends to cultural enrichment and overall development. In many cases, overall development on the academic, community, professional levels require programming that clearly acknowledges those involved. Cultural-based fraternal organizations on campus are undoubtedly one of the most effective ways to do so, both at the undergraduate and graduate level. Due to programming that enhances the students directly involved by providing many opportunities for growth, community development, professionalism, service and academic excellence- members can spread their wisdom and resources to help others in their respective communities.
1	1.64%	<input type="checkbox"/>	It is important because it helps individuals find other communities and offers them a chance to learn more about their own. It helps grow people as leaders and as people. It opens eye to things people never thought existed before. Culture is such a great thing to have because it is boring when it is the same thing every day and having that brings excitement to everyones life.
1	1.64%	<input type="checkbox"/>	It is important because representation is vital especially on a college campus
1	1.64%	<input type="checkbox"/>	It is important to feel included and represented in the world and across predominately white institutions, such as The University of Tennessee.

These organizations provide positive representation of each minority culture, while empowering and inspiring their communities simultaneously.

| 1 | 1.64% | <input type="text"/> | Particularly for this campus, since it is a PWI, some of the minority and multicultural groups are more subject to being underrepresented and neglected. 1	1.64%		When it comes to being in a public white institution as a minority, it's really hard finding people who look like you. And it makes you feel really alone, and without a sense of community.
